

# Naracoorte South Primary School

7th July, 2022

## Principal's Report

Wow! I have blinked and the first half of the year is almost over. Looking back at the last semester we have all achieved so much. It has been yet another unique time for teaching and learning. As a school we have worked through using online platforms to support distance learning, many COVID- 19 interruptions and ongoing changes to health requirements. Right now is the perfect opportunity to take in all the moments we are grateful for and take some time to look at what we have achieved as a school. We can practise this by

expressing gratitude and noticing the positives that exist around us. Our behaviours, attitudes and actions have demonstrated just how resilient, determined and positive everyone is here at Naracoorte South and we should be truly proud of this.

### Mid- Year Reports

After a productive and jam-packed first semester, it's that time of year when we celebrate all the learning our students' have been involved in and the great improvements that have been achieved in our school. Our teachers spend a great deal of time reflecting and writing about each child's learning, progress and future goals. When you receive the reports tomorrow, please take the time to go through them carefully with your child, supporting important reflections and goals about their learning journey. Use this wonderful opportunity to celebrate their growth and set new goals with them for the remainder of the year.

### NAIDOC Week

This week we join Australia in celebrating National NAIDOC week. NAIDOC week is held in the first week of July each year, to celebrate and recognise the history, culture and achievements of Aboriginal and Torres Strait Islander peoples. Thank you to Mrs Brighton and CC, for creating a wonderful NAIDOC exhibition in our library for classes to visit this week. NAIDOC Week is an opportunity for our students' to learn about First Nations cultures and histories and participate in celebrations of the oldest, continuous living cultures on earth.

### Staffing News

I would like to advise our families that Sile Legoe will be taking long service leave in Term 3, while she visits her family in Ireland. In Mrs Legoe's absence we have two teachers who will be working in Room 14, Year 4/5 class. Kylie Caithness (Mrs K) will be teaching on Monday, Tuesday

**Resilience**  
**Opportunity**  
**Responsibility**  
**Pride**

### Important Diary Dates

Friday 8th July - Casual Clothes Day

Friday 8th July - 2.15pm End of Term Dismissal

Monday 25th July - 8.50am Term 3 Commences

## ACKNOWLEDGMENT OF COUNTRY

We pay respects to the traditional custodians the Meintangk/Moandik peoples of the Boandik Nation. We also acknowledge other First Nations people.

To Elders both past, present and emerging for their continuing connection to the land, animals and our community. We remember this land is, was and always will be traditional Aboriginal land.

and Wednesday and Ashleigh Anderson (Miss A) will be teaching on Thursday and Friday. Miss A is currently working part time in Room 5 and is familiar to our students'. Mrs K, has just finished her final university placement at our school and we are excited to have her join our team. Both teachers are very passionate, enthusiastic and excited to work with Room 14. We wish Mrs Legoe and her family all the best for their trip and safe travels!

### Michael Minas

Our staff are buzzing after spending last week with mathematics expert Michael Minas. Our student free day was a huge success, teachers and SSO's were actively engaged in Michael's workshop and left feeling excited to teach Maths. The workshop looked at the best way for students to learn by examining the four proficiencies (understanding, fluency, reasoning and problem solving). Teachers explored each of the proficiencies through engaging tasks that they can then implement in their classroom. Michael then spent Tuesday and Wednesday in our classes, modelling lessons for our teachers and SSO's to observe. Nothing helps to bring about improvement like teachers being able to observe high quality instructional practices being implemented with their own students. Our parent workshop was also a huge success, thank you to everyone who took the time to come along and learn about how we can best support our students' to thrive as young mathematicians. We are very excited for our next chapter in improving Mathematics across our school.

### Lion's Mad Minute

I would like to congratulate Jorja Walker, Piper Southern and Chelsea Secker, who represented our school at the Lion's Mad Minute at Lucindale last Wednesday. The girls were very excited to bring home the Upper Limestone Coast Division 1 Grand Challenge School Trophy. Each participant had to talk on the spot for one minute in front of an audience with a random topic, given just before they had to take the stage. The girls' topics were 'Fish are the best pets', 'Surfing is the best sport' and 'Doctors are better than dentists'. A fantastic effort by all! Also a big thankyou to Roslyn Maggi who drove them there so they could participate!

### Writer of the Week and Tea with the Principal

Congratulations to our winners this week – Roman Nicholas-Herron in Year 5, for writing 'Maxibons'. Here is a snippet of his great writing:

*Tip toe, tip toe, tip toe... I was creeping my way to the freezer in the laundry. It was the middle of the night and Mum was sleeping. When I opened the freezer there was no Maxibons. I shut the freezer with anger! I felt sad and angry as I made my way back to my bedroom. As I walked into my room I saw something in my bin. What was it? It was a Maxibon wrapper, I must have eaten it in my sleep!*

And also congratulations to Indy Crick in Year 4, for writing a fantastic persuasive piece about why dogs are better than cats.

*Okay, we all know that dogs are way better than cats! Dogs are playful and cats are lazy. So if you want a playful pet, dogs will be way better than cats. Firstly if you want a cat, well let me tell you cats love to run on the road!*

To celebrate our wonderful authors at NSPS, I invited all of the 'Writers of the week' recipients from this term to morning tea with me in the library. We shared our stories and spoke about new, creative ideas for our next pieces of writing.

### Awards Assembly

A big congratulations to all of our True Blue award recipients this Term - Chelsea Secker, Brooklyn Bryant, Leo Corcoran, Braxton Jaensch, Oliver Garrigan, Oliver Elsworthy, Ella Harris, Jayla Garrigan, Levi Westcott & Lyna Saing. It was so lovely to be able to host this assembly and welcome back our families to celebrate the wonderful achievements in our school. A True Blue recipient is selected each term by their teacher for consistently displaying our school values of Pride, Opportunity, Respect and Resilient. Well done to all of these students', you should be very proud!

### Bus Safety Presentation

Last week our R-2 students were involved in a bus safety presentation by Bus Safe SA – the presenters were bus drivers and professionals with years of experience in the bus industry. The session began indoors, where the presenters showed engaging, interactive videos that raised discussions, key messages and actions around bus safety. This included boarding and leaving a bus, expectations while on a bus, and respectful behaviour towards bus drivers and others. Students' then went outside to inspect a school bus and talk about all the safety features of a bus. This was a wonderful opportunity for our students' to learn all about how to stay safe and why their actions on a bus are important.

### Working Bee

A huge thank you to our families and staff who attended our working bee

on Sunday. We had a great turn out, which truly shows the supportive school community we have. It was so lovely to see how proud everyone was of our school and to see everyone working together to ensure our grounds and facilities are adequately maintained and looking spectacular for our children.

### SAPSASA Success

Congratulations to Pippa Harvie for being selected to represent the Upper South East in the state netball carnival in Adelaide last week. Pippa's team finished equal third for the carnival, a fantastic effort and experience – well done Pippa!

Jack Hutchesson & Bree Ellis participated in USE hockey SAPSASA last week having a successful carnival. A special congratulations to Bree Ellis who has been selected to represent SA in the 12 & under state hockey team at the School Sport Australia Championships in Canberra.

A fantastic effort!

Congratulations also goes to Hamid Karimi who has been selected to represent the Upper South East SAPSASA District at the School Sport SA Soccer State Carnival in week 4 next term.

Enjoy your holiday break with your families and friends.

See you all in Term 3!

Jess

Well we have almost made it to the end of term 😊 I can't believe we are half way through this year already. We have managed to squeeze lots into the first 2 terms and next Semester will be no different. Lucky we like to be busy and engaged in lots of different activities!

### Intention Assembly

At our last KIC exec meeting we looked at the different issues that have been brought to our R-6 meetings. We noticed that there were still some issues arising with games being played fairly at breaktimes. The KIC exec made the decision to continue to focus on the same intention for another fortnight "**Be Safe Play Safe**". I feel this was an important learning point for them – if you haven't learned something yet, it is best to go back and consolidate that knowledge before we move on. If we move through our life trying to always get to the next step quickly, sometimes we miss the opportunity to really understand the concept. This is something we have been focussing on in our maths improvement journey too. When we set these intentions we are trying to teach the students strategies for life – if they are not showing that they understand, we need to develop their understanding, not just move on.

So for Week 10 and Week 1 Term 3, we continue to focus on these points:

- **To "Be safe play safe!" students will need to:**
- **Follow all of the rules to the game or sport they are playing**
- **Respect all players and equipment**
- **If they have any troubles try talking to the people involved and ask them to stop**
- **If they don't stop then ask a teacher for help**

### Michael Minas

It was wonderful to see a group of our parents coming along to Michael's parent workshop last week. He is a very engaging speaker and I am confident everyone left with some key takeaway points to focus on at home. If you were unable to make it, here are some of the main points Michael raised:

**Mindset** – Be careful about what message you are sending to your children about Maths, as this can influence their own mindset. Try and avoid phrases like "I hated maths at school" "It was too hard – I didn't understand it". Focus on helping your child to develop a love of maths 😊

**Games** – This is potentially the best way to engage your children in maths and develop their numeracy skills. Michael's website "*Love Maths*" has an amazing section with fun maths games. They even have little videos showing you how to play them! I am going to be sharing some on See-Saw each week so look out for them! [www.lovemaths.me/games](http://www.lovemaths.me/games)

**Reasoning** – maths has changed a lot over the years. How often have you thought "that is not how I learned it at school!" If your child comes home with a new method you are unsure of, ask them to explain to you how they did it. The ability to explain their reasoning is a vital

maths skill and it helps them to strengthen their understanding. Don't be scared to reach out to your child's teacher if you need some help understanding new methods!

**Opportunities** – Find everyday examples of using maths with your children. Let them pay for shopping (bonus points for cash!), play shops or cook together! I will also be putting some tips on See-Saw for other things you can do to make maths fun at home 😊

I hope that you have a wonderful holiday. Hopefully you will get some time to spend together as a family. I know the Shepherd girls are looking forward to doing lots of cooking, nature walks and bonfires 😊 Have a lovely 2 weeks and I will see you all next term!

😊 Kym

### Casual Clothes Day

The KIC executives of NSPS have decided to have a casual clothes day on the last day of term 2. Your child will be able to wear anything **school appropriate**. This is at no cost to you.

If your child chooses to wear casual clothes they will need to be suitable for **all** lessons.

We hope as many children as possible wear their casual clothes and have fun.

Kind regards,

Veal, Max, Sid and Pippa

The KIC Executives

*Veal, Max, Sid & Pippa*

## Counsellor Chat

### LAP News

I am pleased to announce that our LAP Programme will be back on deck from the beginning of Term 3. To date we have 6 kind volunteers and 9 lucky students who have all met each other and who are now looking forward to spending time working together. Don't forget: it's not too late to join our happy group! Please contact me at the School and I will be happy to give you more information about what is involved.

### Rub-a-dub Dub performances

Last week the Drama Club performed "Rub-a-dub Dub" to packed audiences. The phrase, "It'll be alright on the night", rang true with our 15 talented actors remembering their lines and dance moves, and giving a great deal of entertainment to those who attended.

Congratulations to our "lucky seat" winners Yvonne Hogarth and Ginnie Harvie, who were each presented with a meat tray from Beef the Butcher! Thanks to Sid Ebert for recording the show on the second night. Copies will be available next term for anyone who is interested.

We thank everyone who came along and supported us last week. With the monies raised we will be purchasing some new microphones and lights, ready for our next production!

### End of Term

I think we are all ready for a break! Some may be travelling, others may be looking forward to some quality time at home or just some less hectic mornings. I hope we can all take some time to take a breath and reflect on our busy term. Well done, everyone! Stay safe.

*Cathie Biggins*  
Wellbeing Leader

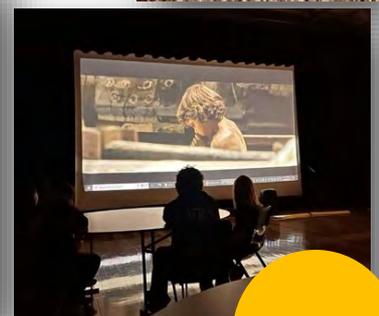

### Indigenous Studies Excursion

Last Wednesday on the 29<sup>th</sup> of June, Room 16 went to the Naracoorte Homestead to experience the old buildings and Indigenous heritage in Naracoorte. We went with Mr. J, CC and Mrs. Brighton.

First of all, we went into the front yard to look at the huge scar trees. One was 450 years old, and the other was over 500! A scar tree is a tree that has had part carved out by Aboriginal people to create a canoe, a bowl or something else useful. Natasha, the lady who lived there and looked after the gardens, showed us around the buildings. Amazingly, they were all over 150 years old, and built by some of the first settlers in Naracoorte. It was an amazing and educational experience, and we all really enjoyed it.

After recess, we went on the bus to the Naracoorte Town Hall to watch a series of short films made by Aboriginal people. These were about caring for the bushland and the sea and were short, entertaining films.

Write up by Kelcey Dolphin

## Boandik Seasons

Did you know that our region has 6 seasons?

The Boandik people of our area can identify 6 different seasons by the types of plants that grow, the migration and the behaviours of the animals and by other indicators in our environment. Many of our NSPS students have been learning about the Boandik seasons, and the EAGS team will soon begin construction on a 6 seasons garden for our propagation area.

On Wednesday, 24th June, Dougy Nicholls from Kingston talked to NSPS students about recognising the seasons and performed a smoking ceremony to commemorate the beginning of planting. Students walked through the smoke to the sounds of the didgeridoo and learnt the significance of the ceremony. Some of the students from rooms 5 and 14 performed the dance of the Kunnawarra (black swan) to the music of Aboriginal artist Harry Wilson. The dance taught the movements of the Kunnawarra such as how it protects itself, when they fly and their behaviours during the different seasons.

## Cybersafety

With our holidays upon us there will be more time for our children to be online. It is then timely to remind them of the importance of being safe when using technology:

- ◆ Never share your password or personal details with others.
- ◆ Only “chat” with people you actually know.
- ◆ Be kind online.
- ◆ Make sure you stay on the site you are allowed to be on.
- ◆ Tell an adult if you see anything which seems wrong, inappropriate or if you are worried.

An excellent site for learning more about protecting your child from potential dangers of using the internet may be found at <https://www.esafety.gov.au/parents>.

Wellbeing Leader

In week 10, students in Grade 5 and 6 participated in 'Way 2 Go Bike Ed.' This is a 5 day program run by experienced instructors from Adelaide. The program teaches students how to ride a bike safely on the road, as well as how to make sure your bike and helmet are safe for use. Students learned how to control their bike and navigate a course on school grounds, before going on the roads around town with their instructors to practice their skills in real situations.

Sam Baker

### **Robert the Bruce and the Spider: Scottish Legends and Folklore**

Every country has its legends, one of the famous legends from the country I was born (Scotland), is the story of Robert the Bruce and the Spider.

Robert the Bruce fought for Scotland's independence, he was crowned King of Scotland in 1306.

"Things weren't always so sunny for King Robert, and that's where the spider comes into the story. After the English repeatedly defeated his armies, the famed King of Scots was forced into hiding. Legend has it that when Robert's spirits were broken, he took refuge in a cave. Sitting in the cave, he noticed a small spider attempting to weave a web.

The spider tried and failed over and over. Each time the spider fell, it climbed back up to try again. Finally, the spider's silk took hold, and the spider managed to spin a web.

Robert the Bruce saw himself reflected in the spider's struggle. After watching the spider finally succeed, Robert found the inspiration to return and fight the English despite overwhelming odds. He was victorious against the King of England in the Battle of Bannockburn in 1314. This triumph ultimately turned the tides towards later winning the independence of Scotland in 1328" (By Alison Ensign August 24, 2019).

I often tell this story to students who struggle with persistence, they often see a problem and say "I can't do it". My response is that "you can't do it YET".

John Stayte  
Pastoral Care Worker

## Lion's Mad Minute

We arrived at the Lucindale Hall where the Lion's Mad Minute was going to be held. We were all very nervous, but knew we had to do it for the school. They called out the first school. It wasn't us! After a few schools our school was called. Nerves rushed through our bodies. Legs were shaking. Competing against 18 schools was very nerve racking. Piper went first with her topic of "Surfing is the best sport". Jorja was up next and she picked a super challenge. Her topic was "Doctors are better than dentists". She talked about how doctors can help you in a life or death situation. Next was Chelsea with her super challenge "Fish are the best pets". Chelsea was terrified, but kept thinking "One minute, just one minute!" and then it was over.

Then we had to listen to the other kids speeches. Some were pretty good. We felt awful because we didn't think we did very well, but when they called out the awards .. We Won! We actually won! We knew we had done our school proud. Best moment Ever.

*Chelsea, Piper and Jorja*

## Hockey

**Who:** Jack goalie in boys, Clarry (coach) and Bree goalie in girls

**Where:** Adelaide Grange Hockey Club

**Highlight:** Beach House, Watermark for dinner, running out and scaring Clarry then running back to the goals multiple times.

What you enjoyed about the week: Missing school to have a great few days of hockey!

**Results:**

On Day 1 we lost 1 and won 1

On Day 2 we won 2 and drew 1

On Day 3 we won all 3 games to finish the week off well and we came 2<sup>nd</sup> overall, winning a silver medal.

Sapsasa hockey was a blast! In the girls

Under 12's hockey carnival at Adelaide Grange Hockey club's fields. We missed school to have a great few days of hockey! For Team bonding time on day 1 after some great games we went to the Beach House to play and after to Watermark for dinner.

With our amazing coach, Clarry Martin and Garfield Plushie (that one of the girls won at the Watermark's arcade, when having dinner there,) we ended the great 3 days with smiley faces and a silver medal.

Bree Ellis & hack Hutchesson

**June Birthdays**

## SAPSASA

## Netball

At SAPSASA netball in Adelaide early this term my team was in division 4 and I had lots of my friends in my team and I made lots of new friends as well. My coach was Jordan and our team manager was Caz Pfitzner. We played at the Thunderbirds

stadium in Adelaide. We were in Adelaide for 3 days and we played 3 games of netball every day. On the first night we went to the Beach House and then went out for dinner at the Surf Club at the Beach House. On the second night we went to the beach and did a recovery session I didn't go in the water because it was very cold so I played in the sand instead. We play 9 games overall and we won 7 of them we came second overall. But there were two teams that won 1<sup>st</sup> place so technically we came third.

## Happy Birthday to ...

Zavannah Williams who was 7 & Chyanne,

Cubero-Hobbs who was 8 on 24th June

Levi Westcott who was 6 & Sinead Legoe who was 11 on 27th June

Max Lush & Vea Peciller who were 12 on 28th June

Palace Gnys & Cameron Herrod who were 8 on 1st July

Jett Mark who was 8 on 2nd July

Patrick Chambers who was 10 on 4th July

# NAIDOC Week

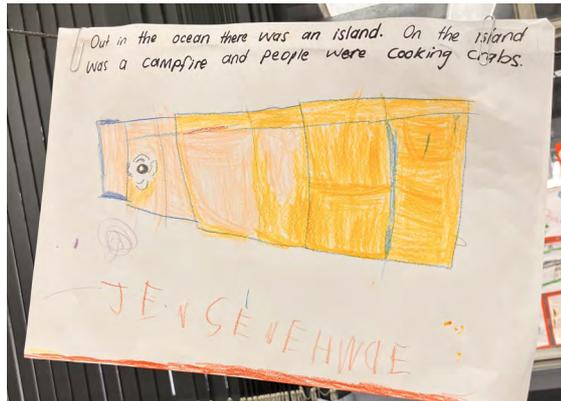

For NAIDOC week, our school library is hosting an art exhibition showcasing work by our students who have been learning about Aboriginal and Torres Strait Island culture. Art work within the exhibition includes: bark painting; painting with natural materials; string-art creations; Dreaming and constellations; digital art through the use of symbols; collaborative art from an Aboriginal Dreaming, and NAIDOC week themed Australian native animals.

The art exhibition is open to students and families to visit throughout the day, and view the art work, watch the digital presentation, read books by Aboriginal and Torres Strait Islander authors, see Aboriginal art work and view traditional artefacts.

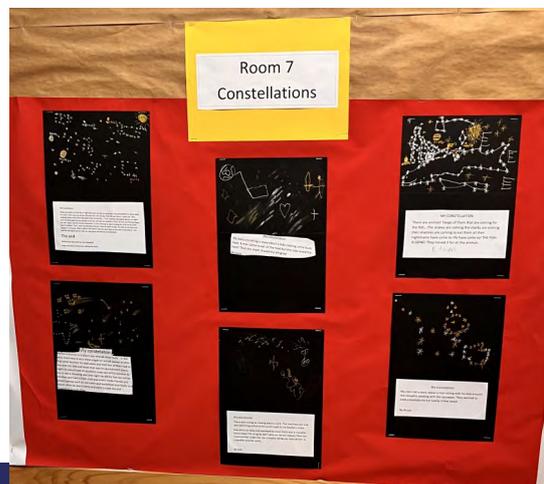

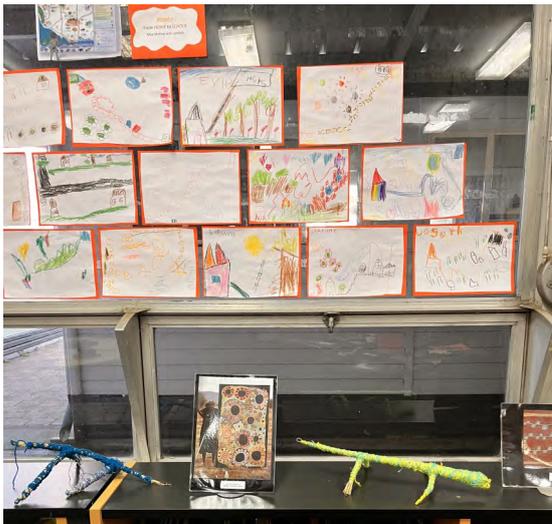

Chelsea Brighton  
AET

"Respecting  
Aboriginal  
history"  
Patrick Clark

"It means learning about Aboriginal people and how the land is important to them. We learn ways to look after the land because of how the Aboriginal people used to work with the land and maintain it for thousands of years."  
Eddie Dolphin

"Aboriginal history coming together with Australia's history and all Australians connecting."  
Matilda Lush

"Learning about Aboriginal culture"  
Spencer Smith

"Learning about Aboriginal culture and true Australian history."  
Laurence Moffatt

## RAINBOW DAY

On the 17<sup>th</sup> of June, NSPS participated in a rainbow dress up day. This day was a whole bunch of excitement fun, whilst also being a great help towards raising money for the Women's and Children's Hospital in Adelaide. Rainbow Day involved each class being provided with a unique colour to dress up in for the day, which made for an impressive whole school rainbow photo. Additionally, the YMHA ran a loom band creation station at recess, where students were able to go and learn how to make loom bands – how fun! This was such a fun and joyful way to spend a sunny Friday at school, so thank you to Mrs Biggins and all members of the YMHA for organising the day for all to enjoy.

## Room 16 Visual Arts

This term students in Room 16 focused on the 7 elements of art – shape, space, texture, line, colour, tone and form. Students did a *texture* walk around school and identified the textures that we see every day. They created *colour* wheel eyes that looked at identifying primary, secondary and tertiary colours and how to blend paint.

However, the activity that students found the most difficult was when looking at *line*. The Year 5/6's took inspiration from Indian and Indonesian mandala art. Mandala art looks at repeating patterns and lines to create shapes and use the negative space around the lines. Students created their patterns using lead pencil and then using the light from windows mirrored the image to tessellate their drawings into all four corners of the page. After outlining with permanent texta, they came up with some vibrant, colourful and very beautiful results and used shapes like arches, circles, diamonds, and squares. Some chose their favourite colours, while others chose a selection of warm or cool colours. The process took a few weeks, with students struggling to think of colour combinations and lining up their reflections to make them symmetrical. Plus, the cloudy days didn't help! I hope you enjoy room 16's colourful art, which will be on display in the foyer from week 10.

### Buddy Bench

#### Week 1

Monday Angus & Noa S-B  
 Wednesday Makenzie H & Aria  
 Friday Spencer S & Basti

#### Week 2

## Room 8 Investigations

In investigations -

- We can show how we feel
- We make cool faces
- We make funny faces
- It is hard to stand up the dominoes without them falling over
- We enjoy learning the symbols
- We can make stories using symbols
- These are really fun and can do difficult things (beebots)
- These are fun. Good for coding (beebots)

**Comic Book Workshop**

Thursday 21st July |2-5pm | Naracoorte Library Comic Book Workshop with George Rex Comics This workshop will guide you through the process of designing a character, teach you the ‘language’ of comics and help you create your very own short comic book story. Bookings: RSVP to [jessie.lumb@nlc.sa.gov.au](mailto:jessie.lumb@nlc.sa.gov.au) Where: Naracoorte Library and Town Hall When: Thursday 21st July Time: 2-5pm Cost; Free

**AUTHOR TALK**

Kelcey Dolphin, 11am, Monday 11 July

**Pack:** The Adventure Begins will take you on a thrilling, action-packed adventure following the life of Storm and her packmates. From rescuing Alpha’s pups from the bad river to fighting foxes, will Storm learn what it truly means to be part of the pack?

**ABOUT THE AUTHOR**

Kelcey Dolphin has been writing stories since she could hold a pencil. She was ten years old when she wrote this book and eleven when she completed the six-book series and began the publishing process. She lives in the southeast of South Australia on a small farm with her parents and brothers. She drew her inspiration from other books and her dogs.

FREE | Contact the Library to RSVP.
